

Name : Nitin Rajendra Yeranale
Class : SY_MCA

38

Experiment No : 9

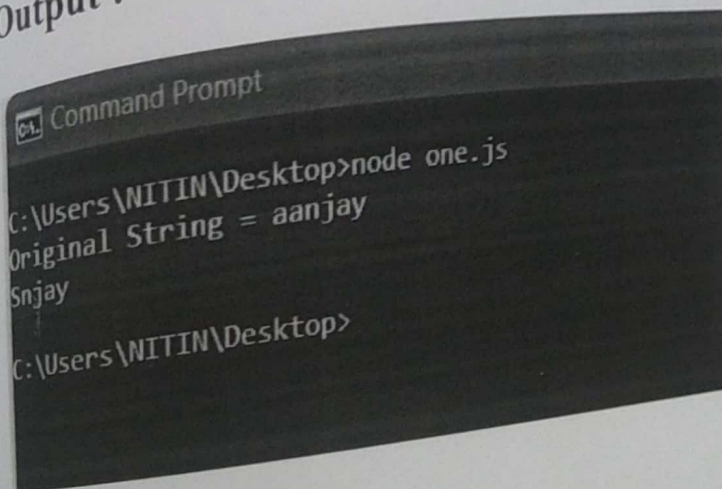

Roll No: 03
Batch : A1

Q1) Write a node.js program to replace two or more as with the letters on the given string using regular expression

#code :

```
a="aanjay"  
console.log("Original String = "+a)  
console.log(a.replace(new RegExp("[Aa]{2,}"), "S"));
```

Output :

```
Command Prompt  
C:\Users\NITIN\Desktop>node one.js  
Original String = aanjay  
Snjay  
C:\Users\NITIN\Desktop>
```
